## JEANERETTE.

### Railroad Agent Leaves for New Field of Usefulness.

Special to The Times Democrat.

Jeanerette, Sept. 25.—D. A. Dimitry, Southern Pacific road agent at this place, left here yesterday for New Iberia to assume the duties as agent of that office, to which he was promoted lately by the same company. This promotion was tendered him in recognition of the good and efficient service which he gave to the company and the public at the several stations where he has been employed for the past twenty years. During the three years of his stay here he discharged his duties towards the public with a degree of fairness and impartiality that made him very popular. It was with extreme regret that the people of this little city took their leave of him and his charming wife, when they left yesterday for their new home at Iberia. Before leaving his many friends presented him with a handsome gold watch and chain as a token of their high esteem and regard.
